# Stadium™ Locker

## Athletic Storage Solution

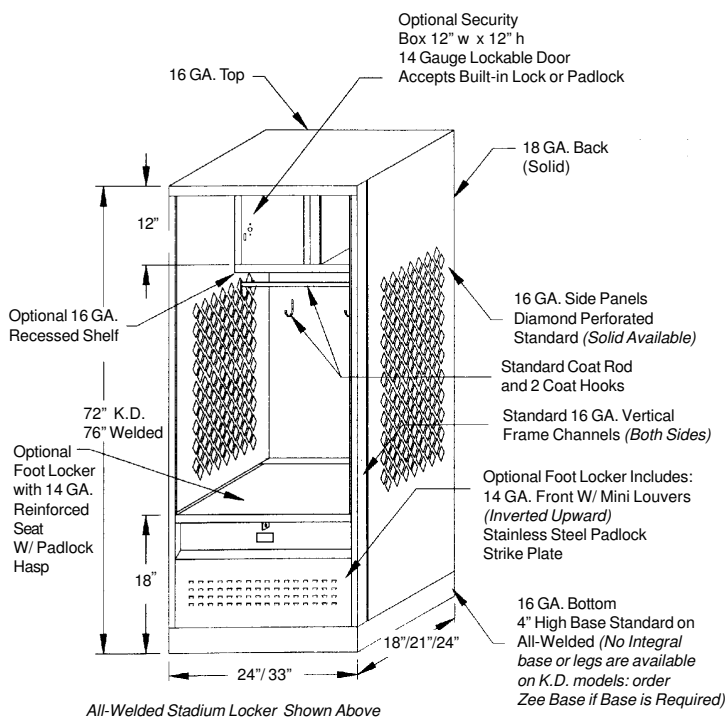

### Welded or K.D Construction

Penco's new Stadium™ lockers are ideally suited for athletic team rooms, fire fighter's equipment or any other application where easy access to uniforms and/or equipment is required. They are available as a simple open shell, or with the addition of a shelf, security box and footlocker, if desired. The open front and visually perforated sides create full ventilation while allocating a specific storage space to each individual.

Fully accessorized, it is outfitted with a security box fastened to a full width shelf, and a footlocker with a hinged, reinforced seat at the base. Both compartments are lockable to secure valuable items. Coat hooks and a full width coat rod provide convenient hanging places for clothing and equipment. The front of the footlocker is recessed for an external padlock, and a stainless steel strike plate protects the finish. The footlocker design saves floor space by eliminating the clutter of open locker doors and the need for separate locker room benches.

Stadium lockers are available in All-Welded construction or K.D. (Knocked Down, or unassembled). They are available in 24" or 33" widths and 18", 21" or 24" depths. K.D. lockers are 72" high; All-Welded models have an integral 4" base, bringing the total height to 76". Color selection is from any one of Penco's 20 baked enamel decorator colors.

## • Eliminate the Need for Benches

The optional footlocker is a great space saver. The congestion caused by benches in the middle of the team room can be eliminated because athletes and other locker uses can sit on the footlockers.

## • Great Ventilation

One of the results of hard work and athletic competition is sweat. Our open face design and diamond perforated side panels allows air to flow through the locker. Clothes dry faster than conventional lockers resulting in better hygiene and less odor.

## • Keep Valuables Secure

Let the optional security box and footlocker relieve Team Managers of the responsibility of handling of athletes and locker users personal possessions.

## Order Options

- Shelf
- Shelf with Security Box
- Foot Locker
- Solid Side Panels

### Shelf with Security Box

Safe haven for jewelry, watches, wallet, mouth guards and other personal effects.

### Footlocker

Serves as a storage place for book bags and athletic equipment. Doubles as a seat to make protective equipment easier to put on while giving the athlete a place to rest
